PROFESSIONAL SUMMARY

Community & Partnerships Ops specialist with 2+ years remote experience running high-volume member support, partner allocations, and process documentation for online communities. Handles Discord, Telegram, and Twitter/X ops; builds FAQs/templates so coverage stays consistent. Currently open to remote community ops, partnership coordination, and support roles (flexible hours / night shifts). Learning n8n and Make to automate triage patterns previously run by hand.

WORK EXPERIENCE

Ops systems, tools & skill building

Feb 2024 - Present

Independent | Remote

- Actively seeking remote community ops, partnership coordination, and support roles.
- Documented support and partnership patterns into reusable process demos and templates.
- Shipped small systems (Trading Knowledge Base, Codex Manager) for structure, research, and QA practice.
- Learning n8n and Make.com to automate FAQ triage and notify-on-unresolved workflows.

Community & Partnerships Ops

Feb 2022 - Jan 2024

Degen Homes (co-founded community) | Remote

- Helped grow and operate a Filipino Web3 community to 500+ members.
- Handled 50+ daily member inquiries at peak via Discord (onboarding, access, campaign rules, policies).
- Coordinated 100+ external partnerships from outreach through delivery with accurate allocation lists.
- De-escalated disputes, removed scam content, and enforced community guidelines.
- Built reusable FAQs and response templates to improve consistency and reduce repeat questions.
- Organized giveaways, events, and allocation campaigns across Discord and Twitter/X.

Freelance Community Operations

Jun 2022 - Aug 2023

Multiple online communities (contract / part-time) | Remote

- Supported five communities and several short-term contracts simultaneously (client names under NDA).
- Managed inbound/outbound partnership communication on Discord, Twitter/X, and Telegram.
- Compiled accurate winner and allocation lists (usernames + wallet addresses) for project teams.
- Primary contact between members and external project teams; timely announcements and updates.

REMOTE WORK READINESS

- Connection: PLDT Fiber 500 Mbps (primary) | Mobile hotspot (backup)
- Equipment: Dual 24" monitors, Ryzen 5 7500F desktop, 32 GB RAM, UPS backup, backup laptop
- Availability: Flexible schedule | Open to any time zones and night / graveyard shifts
- Typing: 70+ WPM | Languages: English fluent (written) / conversational (spoken); Filipino native

SKILLS

Community ops: high-volume inquiry management, de-escalation, moderation, FAQs/templates, channel ops

Partnership

EDUCATION

Bachelor of Science in Civil Engineering (160+ units completed)

Mapua University, Manila | On leave - focused on remote ops work and independent systems
